**DETAILED ACTION**

1. Claims 4-8, 14-19, and 23-27 remain for examination. The correspondence filed 9/2/08 amended claims 4-8, 14-19, and 23-27.

***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/2/08 has been entered.

***Specification***

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Applicant is requested to identify those portions of the specification that disclose a computer or any other apparatus performing the various limitations of claims 4-8, 14-19, and 23-27; nor is there any recitation in the specification that the various claimed codes are "computer readable".

***Response to Arguments***

4. Applicant's arguments filed 9/2/08 do not comply with MPEP § 714.02 as not being fully responsive because they do not illustrate where support in the disclosure may be found for the amended limitations.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 4-8, 14-19, and 23-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. As noted above, the specification fails to disclose an actual apparatus to implement the invention, or that the invention operates on computer-readable components.

***Claim Rejections - 35 USC § 101***

7. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

8. Claims 4-8, 14-19, and 23-27 are rejected under 35 USC 101 because the claimed invention is directed to non-statutory subject matter. As noted above, the

Art Unit: 2135

specification only supports a non-physical implementation of claims 5-8, 14-19, and 23-27 as a “unit for determining an identification number...” See also the previous Office Actions for clarification. Claim 4 is rejected as evidenced by claim 5.

***Allowable Subject Matter***

9. Claims 4-8, 14-19, and 23-27 would be allowable, pending resolution of the 101 and 112, 1<sup>st</sup> paragraph rejections discussed *supra*.

***Conclusion***

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas Gyorfi whose telephone number is (571)272-3849. The examiner can normally be reached on 8:30am - 5:00pm Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on (571) 272-3859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
